Info: Review your current account information to stay informed about your student loans.

Account: E891270839

Dear MANINDERPAL,

We value you as a borrower, and want to make sure that you're prepared to begin repaying your student loans when the time comes. It is important that you stay informed about your student loan balance and any accrued interest. Below we've provided a snapshot of your current student loans, along with your outstanding principal balance, accrued interest, interest rate, and current balance.

If you have any student loans in repayment, we will send a billing statement three weeks before your due date. If you don't have any payments due right now, you still have the option to begin paying on your student loans, including paying down interest on any unsubsidized loans, which will save you money in the long run. You can also log in to your Nelnet.com account to see the current balance on your student loans, and to learn more about repayment, repayment plans, and other options available to you. To determine your regular monthly payment amount on various repayment plans use the calculator at Nelnet.com/All-Calculators.

Loan Number	Outstanding Principal Balance	Accrued Interest	Interest Rate	Current Balance
01	\$3,500.00	\$.00	4.66%	\$3,500.00
02	\$3,500.00	\$.00	4.29%	\$3,500.00
03	\$6,000.00	\$645.52	4.29%	\$6,645.52
04	\$5,500.00	\$.00	3.76%	\$5,500.00
05	\$7,000.00	\$399.57	3.76%	\$7,399.57

Payment amounts are determined based on many factors, including the repayment period, outstanding principal balance, accrued interest, interest rate, and - for income-driven repayment plans - income, and family size of each borrower. In order to help you understand how monthly payments are calculated when your loans are in repayment, we have provided three sample charts on the back of this letter. These charts demonstrate how a regular monthly payment amount is calculated, and how much of that payment will go toward the principal balance and toward interest.

Just know that we're here for you when you need us. If you have any questions, please visit Nelnet.com or call us at 888.486.4722.

Sincerely,
Your Nelnet Customer Service Team
